

## Dublin Core Metadata Element Set

<i>element</i>	<i>definition</i>
TITLE	the name given to the resource by the author or publisher
CREATOR	persons or organizations primarily responsible for creating the resource (authors, artists, photographers, composers...)
CONTRIBUTORS	persons or organizations who have made a significant intellectual contribution to the resource, whose contribution is secondary compared to the authors (translator, illustrator ...)
SUBJECT	the topic of the resource or keywords or phrases that describe the topic or content
DESCRIPTION	textual description of the content of the resource (may contain a summary, index ...)
PUBLISHER	the person or institution responsible for making resources available
DATE	the date on which the source is published
TYPE	the nature or resource genre (home page, novel, work report, technical report, dictionary...)
FORMAT	physical or digital information about the resource (file format, dimensions of the resource ...)
IDENTIFIER	an unambiguous reference to the resource with permanent identifiers (URL, DOI, ISBN ...)
SOURCE	information about the original source on the basis of which the work was created
LANGUAGE	the language or languages of the resource
RELATION	references to resources with similar content
COVERAGE	a spatial reference describes a physical region using geographical names or coordinates; a temporal reference describes what the source is about, not when the source was produced or accessed
RIGHTS	information about rights held in and over the resource
