All the eligible applications were be evaluated and ranked according to predefined criteria:

1. Quality of the concrete expected output of the mobility (for instance, an emerging research project idea or draft/ a joint article idea/ a joint proposal / the design of a workshop / a joint open dataset / a joint Graduate School activity schedule/ a Challenge Team activity / a stakeholder or citizen science action) (0-15 points).
2. Feasibility and expected impact of the networking, mentoring of students at host institution, teaching, training and knowledge-sharing programme (0–12 points).
3. Potential contribution to long-term collaboration within the Across Alliance (0–4 points).

Co-funded by the European Union

4. Potential contribution to KCT (Knowledge Creation Teams) strengthening, institutional cooperation and future joint initiatives (0–2 points).
5. Alignment of the mobility within the scope of one of the Across focus areas (0-2 points).
6. Duration of mobility (0–2 points). Hybrid mobilities must comply with the minimum physical presence requirements established in the programme (2 weeks in total) and are awarded points linearly with the physical presence at the host institution, with 0 points for 2-week physical mobility and 2 points for 1-month physical mobility.

All the applications were within the total available budget at University of Nova Gorica for 2026 and will be funded. The funding for the applications will be based on *Annex 1_Across Experienced Researchers (R2-R4) Mobility Grants Programme – grant rates overview*.
