

SSIBAP PER IL RESTAURO RE RENOVATE 2025

international conference

More than a conference—it is a call to action for those who believe that the future of Europe's built environment depends on radical rethinking of how we preserve, adapt, and inhabit our architectural heritage. The symposium will inform the development of new guidelines for participatory renovation, to be finalised and published during Oulu 2026 European Capital of Culture, building a lasting network of innovation across Europe's cultural capitals.
